Semen available directly from owners or distributors:

2 MIL AND 5 MIL SEXED SEMEN AVAILABLE!

If you haven't heard, you're not paying attention.

Note —

I am getting GREAT reports from some other breeders. I went and looked at a large group on Sunday and the Excalibur calves stood out from the pack! Super topped, self and sound, ample bone and TONS of grow to them. I really appreciate the maternal appeal along with the phenotype. These calves easily are the deepest ribbed and yet have a nice self muscle pattern.

In my opinion, I think that Excalibur is the go to bull in the Simmental industry for consistency, style and overall appeal. He seems to be working great on cows with a little Maine influence. My list is off to you. He's the bomb.
